

AI Ethics and Usage Policy - TechCorp India

Chapter 1: Introduction

This policy covers AI usage in all departments. Effective January 2024.

Chapter 2: Approved AI Tools

GitHub Copilot for code assistance (Engineering only).

Google Gemini for research and drafting (All departments).

Grammarly AI for writing improvement (All departments).

Chapter 3: Data Privacy

Never input customer personal data into any external AI tool.

All customer data must be anonymized before AI processing.

Violation of data privacy rules will result in disciplinary action.

Chapter 4: AI Output Review Policy

All AI-generated code must be reviewed by a senior developer.

AI-generated content for clients must be reviewed by a manager.

Chapter 5: Training Requirements

All employees must complete the AI Basics course within 30 days.

Managers must complete the AI Ethics Leadership module.

Chapter 6: Incident Reporting

Report AI incidents to ai-safety@techcorp.in within 24 hours.

Contact the AI helpdesk at extension 4242 for immediate support.
